

SHOOTING TEST FOR DEDICATED HUNTER

1. **Target**

The Impala target of the SAHGCA will be used. The head of the animal may point to the left or right.

2. **Universal rules for shooting exercises**

See separate document “Universal Rules for Shooting Exercises” – document: J006.34.06E – for description of general (universal) items.

3. **Shooting Range Safety Rules and Standard Commands**

See “Shooting Range Safety Rules for Participants” and Standard Commands on the Shooting Range” - document: J006.35.03E – for loading, unloading and safety procedures.

4. **Rifles and calibers**

No limitations on rifles and any centre fire calibre firearm may be used.

5. **Sights and telescopes**

No restrictions on sights and telescopes.

6. **Exercise**

6.1 There will be no time limit for the test. Range officers will however have the right to expedite the exercise if more than 60 seconds is used per shot;

6.2 The test will consist of three shots from 100m at the larger heart/lung/vertebrae area from any position. Any type of rest or suppot may be utilised, but no more than three shots will be allowed;

6.3 The objective is to have three out of three shots in the larger heart/lung/ back vertebrae area. The result is not indicated as a score but only as “competent” or “not yet competent”;

6.4 The sole purpose of this test is to assist with the candidates application for Dedicated Hunter status. No shooting badges are available for this shooting test.

Actual size of target: W x H = 750 x 1000mm

Target areas	W x H mm	Area cm ²	vs Heart
Heart:	96 x 102	76	--
V-heart:	57 dia	25	33 %
Central heart/lung:	173 x 177	272	350%
Larger lung/ vertebra:	235 x 226	512	670%

Scores are printed on the target.

The actual lines on the target are thin red lines which are not visible from a distance.
