

## Special Newsletter: 22 June 2021

Dear Colleague

As promised, we will communicate regularly and consistently relating to the Draft Firearms Amendment Bill . We appreciate your feedback and engagement on the matter. This is the seventh of a number of planned information pieces in which we aim to scrutinize the various sections of this bill.

Today ,we take a critical look at the type of licences and other impediments on legal firearm ownership, which includes the self-defence issue. Tomorrow we will address the specific elements relating to dedicated hunting and sport shooting.

Included with this message today, you will find a link to said information sheet [here](#).

Please note that, together with our legal team, we are also preparing our official comment in opposition to the bill, which we will make available to members as soon as it has been completed.

Kind regards
